

DIAMOND DOES IT ALL !

KGS DIY/Hardware Products

The KGS GROUP is delighted to launch an exciting new range of exceptionally high quality patented DIAMOND tools and abrasives for the DIY/ Hardware market.

For over 50 years, **KGS DIAMOND**, the worlds market leader in flexible diamond technology, has been manufacturing and distributing its products to industry professionals the world over. After popular demand, **KGS** now launches a new line of diamond products especially designed for home handymen and semi-professionals.

Faster grinding... better finish... cost-effective

Diamonds are not only a girls' best friend! The incredible hardness and durability of this stone means that when it is used in a product for grinding and polishing, it simply out performs any of its competitors every time. Perfect for stone, glass, composites, hard wood and hard metal.

Benefits of KGS DIAMOND DIY products:

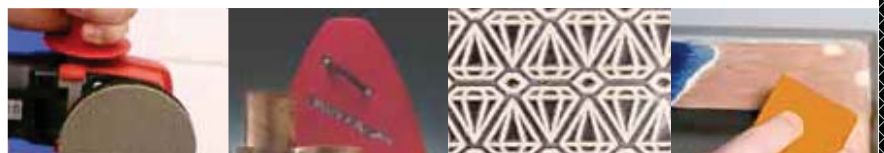

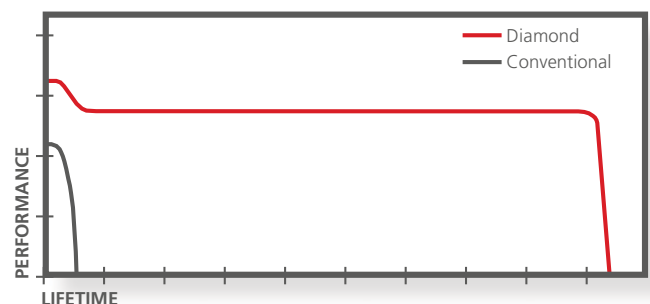

- Swiss Quality
- Easy to Use
- Up to 100 times longer lifetime compared to conventional grinding tools
- High stable performance during the whole life time
- Faster grinding, saves more than half your time
- Smoother finish
- Available in a variety of shapes
- Suitable on almost all materials
- DIAMOND DOES IT ALL !

Diamond out performs every time:

- Exceptionally longer life
- Constant finish
- Continuously high grinding rate

Life Performance

DIAMOND PRODUCTS VERSUS CONVENTIONAL PRODUCTS

KGS DIY Product overview

KGS Diamond Hand Tools

Perfect for the DIY'er, KGS's wide range of diamond hand tools include handpads, files and whetstones for manual sanding, grinding and polishing. Ideal on paint, glass, metal, composites, wood, ceramics and stone.

KGS Diamond Handpads are the newest thing on the DIY market. The diamond component gives exceptional life and performance... Easy to use and incredibly versatile. Awarded the coveted Seal of Approval by the Handyman Club of America.

KGS Diamond Triangles

Triangular sheets with Quick Release System (QRS) especially designed for a delta sander. The sheets will fit most delta sanders on the market due to their unique design. KGS also offers a broad range of multi tool shaped sheets for machines such as B&D Mouse, Bosch PSM and other multi tools. Suitable on paint, glass, metal, composites, ceramics and stone.

KGS Diamond Discs

A variety of high performance diamond discs with Quick Release System (QRS) are available for a broad range of random orbit sanders such as Festool, Bosch, Metabo, B&D, DeWalt etc. Suitable on paint, glass, metal, composites, ceramics and stone.

KGS K-LOC discs, 25mm, 50mm or 75mm screw connected discs to be fitted on an adapter with 6mm shaft for use on drill drivers.

KGS Diamond Sheets

A selection of long-life diamond sheets for all major types of orbital sanders. Available with Quick Release System (QRS) or canvas backing. Suitable on paint, glass, metal, composites, ceramics and stone.

KGS Diamond Belts

For DIY'ers and semi-professionals who need high performance, fast surface grinding and polishing. Available for a broad range of belt sanders such as Bosch, Makita, B&D, etc. Suitable on paint, glass, composites, ceramics and stone.
