

## KGS RENOVATOR™ System

**Your floor, Our challenge!**

### REBORN FLOORS

KGS DIAMOND brings into cleaning solutions a revolutionary concept in floor maintenance. When cleaning is just not enough, you can now restore!

Bring a worn floor back to life, remove light scratching from daily usage or recover your floor's lost gloss.

The KGS RENOVATOR™ light renovation system is a simple, user-friendly and multifunctional program designed to be used without the need of any special equipment or chemicals.

### User-Friendly

KGS RENOVATOR™ can be used on large areas on any scrubber drier with a pad drive plate or under single head machines for small areas. Its unique design allows the discs to work on uneven floors and its reinforced long hook keeps the discs in place throughout the whole of the process. Just fix them on the pad, fill up the tank with water and you are ready to go! No chemicals required!

### System Versatility

The system is versatile and adaptable for different floors, conditions and finishes. Depending on the situation, grits can be skipped or added for perfect results. KGS RENOVATOR™ can be used on all kinds of Terrazzo, Marble, Travertine, Soft stones and Concrete.

# KGS RENOVATOR™ System

Concrete Terrazzo with the 5 step RENOVATOR™ and 3 FLEXIS® pads system, average gloss level of 92% and a safe slip test result of 132.

KGS RENOVATOR™ Orange	KGS RENOVATOR™ Black & Blue	KGS RENOVATOR™ Red	KGS RENOVATOR™ White	FLEXIS® Pads Blue, Yellow & Green
- Light scratch removal - Floor Striping	- Surface leveling - Starting to close the floor for gloss preparation	- Regular Polish - Gloss Preparation	- For a shiny finish on Terrazzo - For a satin finish on Marble	- Extra High Gloss - Daily Maintenance
Make 4 to 5 passes for each step at regular speed across the floor using water and no vacuum.	Vacuum after the last pass for a clean surface on each step before proceeding.	Produces a regular gloss level and perfect finish, proceed for a very high gloss level.		Resume your normal maintenance and cleaning work with the FLEXIS® pads. Different configurations can be made depending on the desired finish.
